## **EMPLOYMENT HISTORY**

- 2001-date     **Information Consultant**, Adhoc Information, Grand Lake, CO. Retrieval and management of technical information for chemicals, petroleum and related industries. Specializing in patent searching and business intelligence. Also develop employee training programs for Microsoft Office, Internet search tools and other software.
- 1984-2000     **Technical Director**, R&D, Nalco Chemical Company, Naperville, IL. Responsible for worldwide technical/business information support for a Fortune-1000 specialty chemicals firm. Developed databases and networked systems for managing Nalco's internal research and product information. Established desktop access by chemists to external knowledge via CAS (Chemical Abstracts Service) SciFinder<sup>®</sup> and Internet resources. Created a corporate intranet and a competitive intelligence program. Provided literature searching, document delivery and library services for research, marketing, patents and litigation support. Developed Nalco policies and training programs for managing company's intellectual property.
- 1980-1983     **Laboratory Supervisor**, Tosco Corporation, Golden, CO. Managed analytical laboratories and technical information support for a \$2-billion petroleum refining and synthetic fuels company. Administered research analytical support for oil shale, coal and refining process development; supervised control lab; developed company-wide databases for Tosco internal information; set up and managed an Information Center.
- 1972-1979     **Technical Information Specialist**, Marathon Oil Company, Littleton, CO. Responsible for company-wide literature searching services in the areas of petroleum exploration, production, refining, petrochemical and minerals technology.
- 1969-1971     **Chemical Staff Specialist**, U.S. Army, Pedricktown, NJ.

## **EDUCATION**

- **Information Science**, University of Denver, 1972-79. Graduate-level coursework in technical and business information systems, resources and services.
- **MS Degree, Physical Chemistry**, University of Colorado (Boulder), 1969. Biochemistry minor. Teaching and research assistantships. Thesis on microcalorimetry of heme-protein oxygenations.
- **BS Degree, Chemistry**, Loras College (Dubuque, IA), 1967. Mathematics minor, *cum laude* graduate. NSF summer grants and thesis project on characterization of a dehydrogenase enzyme.

## **PROFESSIONAL AND PERSONAL BACKGROUND**

- Publications in chemistry and information science.
- Speaker and consultant on information systems and resources.
- Current member of American Chemical Society, PIUG and local groups.
- Grew up on an Iowa dairy farm and attended local schools.
- Personal interests: bicycling, skiing, travel, church and community activities.
